### Why you should choose Life Planning Solutions

We aim to provide personalised and responsible advice suited to your objectives and believe that sound advice and planning is the key to improving your financial position.

We undertake continuous professional development and undertake training programs so we are up to date with legislative changes to superannuation, investment, social security and tax environments.

We have access to technical, risk and investment research professionals who provide us with additional analysis on strategies and products that become available as a result of these changes.

Our financial advisers will help you sort out your goals and weigh up different investment strategies to achieve them.

Most importantly, we turn your thoughts into action. There are no secret formulas to achieving financial security. We work with you to get the basics right and ensure you have a plan to achieve your goals over time.

Life Planning Solutions is one of a select number of businesses that has been awarded Certified Quality Advice Practice status by Charter Financial Planning. This programme sets an industry benchmark for providing high-quality financial advice. The certification is awarded based on industry qualifications, demonstrated best practise business operations and proven success in meeting the financial planning needs of clients.

### Our financial planning process

Everyone is different, with different circumstances, needs and goals. We treat every client as an individual, but follow a defined financial planning process, to make sure you know what to expect from us.

#### Identifying where you want to be

We help you identify your financial and lifestyle goals and explain the services we offer to help you achieve them. The type of advice you need could depend on your life stage, the amount of money you want to invest and the complexity of your affairs.

We will help you to identify the range of issues that need to be addressed to meet your goals. You can then decide whether you want our advice to meet a single need or a broad range of issues.

### Considering opportunities and risks

Good personal advice starts with having an understanding of your current situation. We take a close look at your current financial situation – assets, debts, income, expenses and insurance, and explore the options you could use to reach your goals.

### Bridging the gap

Based on the research we have conducted, we will recommend a strategy to bridge the gap between where you are now and where you want to be.

### Bringing your plan to life

We work closely with you to implement your financial plan. We help you to complete any necessary paperwork and are available to attend meetings with your accountant, solicitor and general insurer so that your strategy is implemented efficiently.

### Staying on track with regular ongoing advice

Time goes on and circumstances and needs change. The final step in our advice process ensures your financial plan remains on track, by providing you with regular ongoing advice.

We design an ongoing service programme to ensure your plan remains up to date as your life changes and so you can obtain the benefits of ongoing reliable advice.

Sometimes, life takes us in unplanned directions. When you need a little extra help on top of our initial or ongoing advice, just ask us to provide you with some additional advice. We are there to help you – whatever the occasion.

Before providing you with ongoing advice we will prepare an ongoing advice agreement.

The ongoing advice agreement will set out what our ongoing advice will cover, your payment method, and how much it will cost.
