North Protected Investment guarantee

The North Protected Investment guarantee option (available over 5 and 7 year terms) guarantees to return all initial capital, plus all contributions.

At any time during an investor's Term they may make a full withdrawal of their Account Value or cease the Guarantee applicable on their account.

The 'dynamic hedging' difference

North is the only product in the current Australian market that can protect investors' wealth without impacting how that wealth is invested through a unique risk management technique – dynamic hedging. Unlike most other risk management techniques available in Australia, we don't rebalance North investors away from growth assets into cash or fixed-interest assets following market downturns or interest rate falls. Instead, our unique dynamic hedging method allows investors to remain fully invested in their chosen asset, with the liability of the guarantee resting with AXA.

Flexibility

North provides investors with all the flexibility of a standard platform including:

- ability to invest in over 45 managed funds.
- switch between investment options
- transition back and forth between superannuation and pension, and
- make regular contributions and withdrawals (including pension payments).

Investment strategy

North provides access to three investment strategies:

Investment Strategy	International Equity allocation up to	Australian Equity allocation up to	Property allocation up to	Fixed Interest [^]	Cash allocation up to
Investment Strategy 1	26%	35%	10%		
Investment Strategy 2	32%	45%	10%	Unlimited	Unlimited
Investment Strategy 3	50%	50%	30%		

[^] Fixed interest includes Australian Fixed Interest and International Fixed Interest.

AXA reserves the right to review the Investment Strategy limits annually. You will be notified of any changes in advance.
